

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC WORKS

SLOW DOWN LA County

Neighborhood Traffic Management Program

February 5, 2004

DEAR RESIDENT:

Re: Traffic Calming Solutions for Your Neighborhood

You were given the opportunity to participate in developing a traffic calming program for your neighborhood at a meeting held at Frank D. Parent Elementary School on January 22, 2004. Enclosed you will find a summary of the presentation and discussions with those residents who did attend. Now, you have the opportunity to comment on the traffic-calming measures you believe should be implemented in your neighborhood. Every residence within your neighborhood has received this notice.

Now is your opportunity to let us know *your opinion* of the plan.

Below is the list of potential measures that may be considered on Corning Avenue, 64th Street, and Springpark Avenue between Slauson Avenue and Centinela Avenue. Some measures, such as bulb-outs and traffic circles, would initially be installed by temporary means to assess their effectiveness, if they are chosen. After a suitable test period, they could be converted to more aesthetically pleasing permanent installations. The measures that are ultimately chosen will be constructed at no charge to the residents/homeowners. Please review the measures carefully, and then fill out and return your comments section of this form below by February 20, 2004.

Proposed Measures

Radar Speed Trailer

☐ YES, try this

☐ NO, don't do this

Speed Cushions

☐ YES, try this

☐ NO, don't do this

Curb Extensions (Bulb-outs)

☐ YES, try this

☐ NO, don't do this

Raised Center Median Islands

☐ YES, try this

☐ NO, don't do this

Traffic Circle(s)

☐ YES, try this

☐ NO, don't do this

For more information about these measures, visit our website address below or call the HOT LINE number below and submit your questions. We will contact you as soon as possible.
